 domain

up to multiple

 domain

users as well as small to large business hosting customers. Whether you want to send/receive your e-mails, host a blog, launch a business site, deploy a content management system or run a discussion forum you can be assured SasaHivi Media Ltd has a solution that will meet your needs. You can host with us in knowledge that your site will have the performance you expect and that our certified engineers are on hand to assist you at anytime of the day or night (depending on the service contract you have with us).

Have a look at some of the advantages of our hosting system:

-

5 mirror servers running simultaneously on 5 different geographical locations in the world, so you can be assured that your online project has 100% up time.

-

Because of the geographical spread of our system the access speed to your online project from different part of the world reaches unmatched speeds.

-

State of the art security - we deploy the the most advanced software and techniques to keep our servers secure. We monitor and update our systems 24x7 to respond immediately to any possible threat.

-

Advanced Spam Filters, which are every hour automatically updated to keep the spam where it belongs in the garbage bin.

-

A highly educated and motivated technical customer service, which is famous for its fast response time!

-

Full technical support 24x7x365 possible!
